Definition	A policy concerned with integrating the principles of environmental, social, and corporate governance (ESG) sustainability into all activities of the University of Jordan. This ensures the responsible use of natural resources, promotes social justice, achieves sustainable development, and adheres to the principles of integrity and transparency. This policy serves as the general institutional framework from which all specialized sustainability policies at the university emanate.	
Objectives	<ol style="list-style-type: none"> 1. Integrate sustainability concepts into education and scientific research. 2. Promote sustainable management of natural resources, energy, and water. 3. Reduce the environmental impact of university activities. 4. Promote social justice, diversity, and inclusion. 5. Support institutional governance and transparency. 6. Enhance the participation of students and alumni in sustainability initiatives. 7. Support the university's participation in global sustainability rankings.
